Objectives

After completing this WorkshopPLUS, you will be able to:

- Create advanced functions
- Create Classes in PowerShell
- Work with the debugger
- Work with code in GIT repositories
- Create GUI based PowerShell code

Modules

Knowledge
Refresh

Developing
Advanced
Functions

Mastering
Parameters

Classes

Error Handling

Debugging

Git
Introduction

Git
Intermediate

Runspaces

Create a GUI in
PowerShell

Agenda Day 1

Knowledge Refresh

- Script Basics, Flow Control and Functions
- Object Models and Regular Expressions

Mastering Parameters

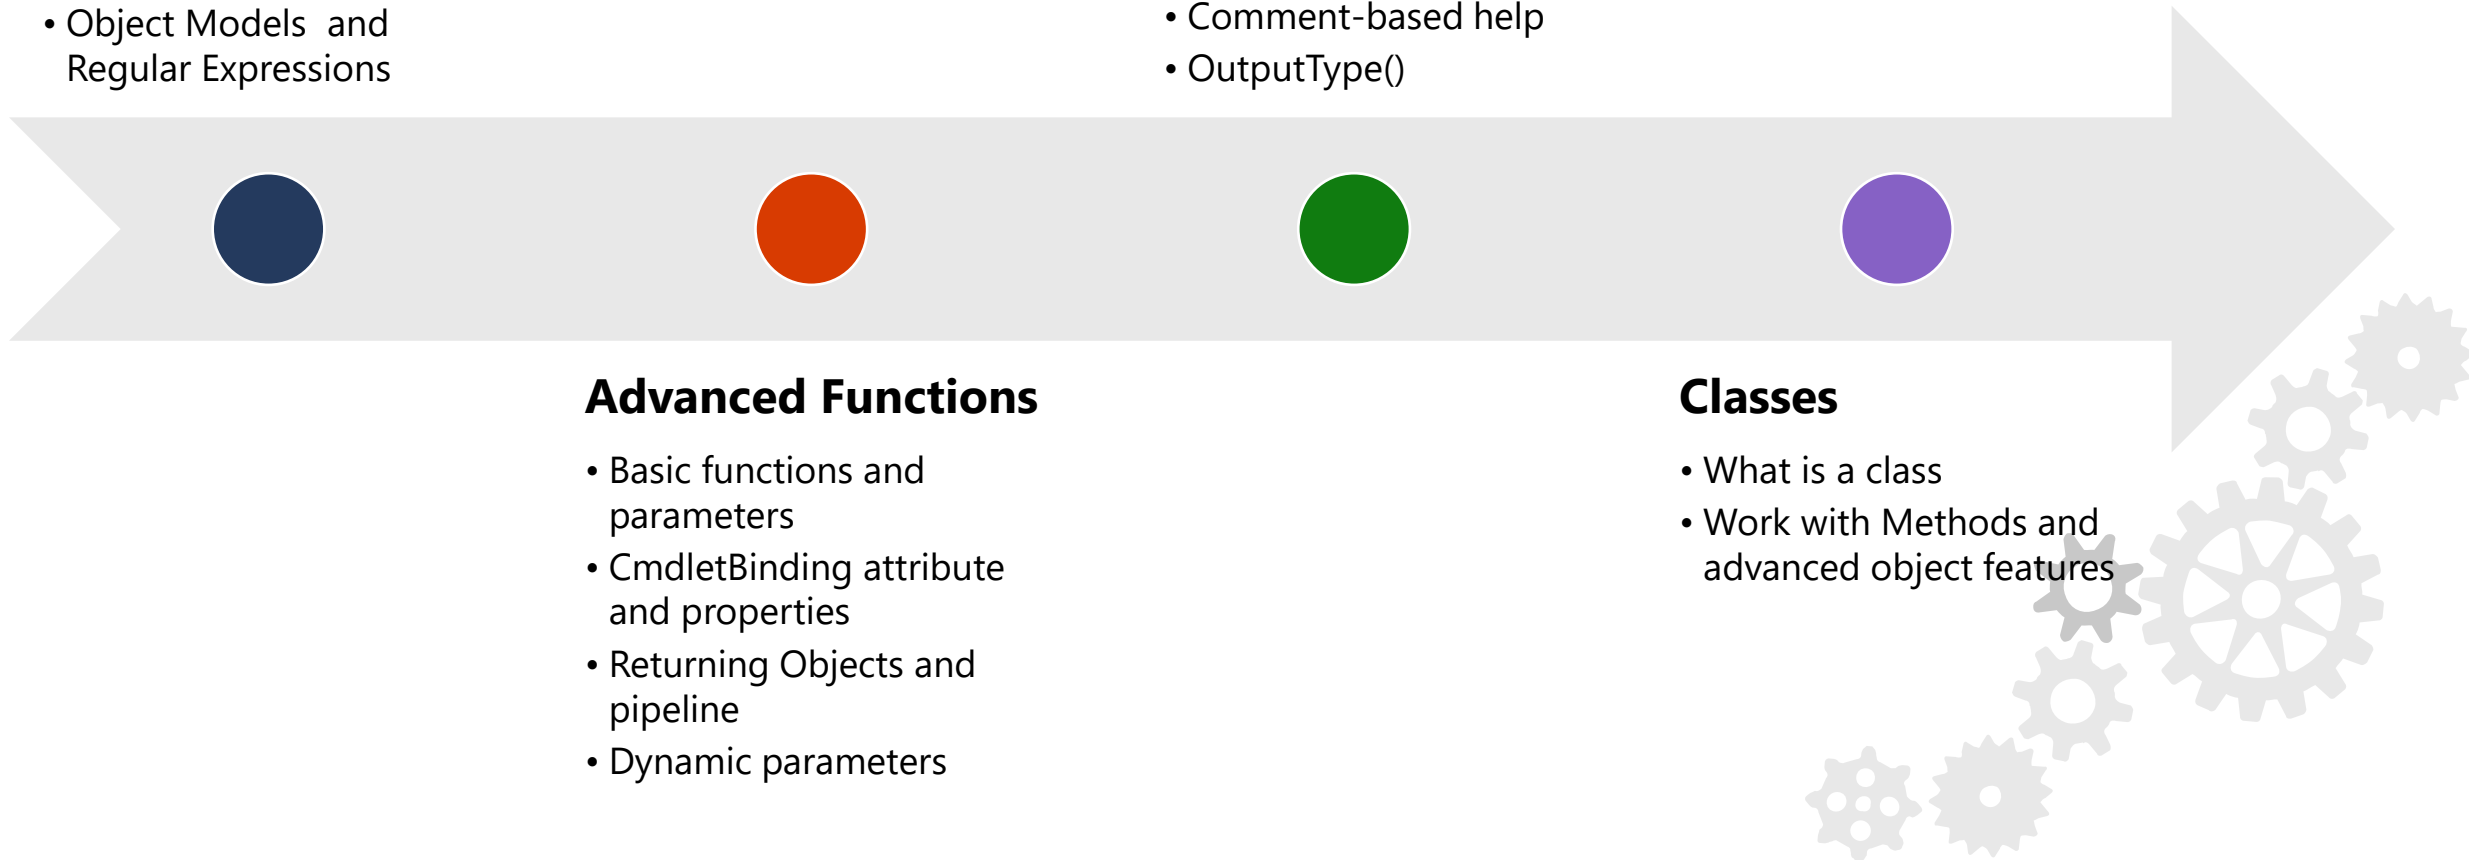

- Attributes and special parameters
- Validation and risk mitigation
- Comment-based help
- OutputType()

Advanced Functions

- Basic functions and parameters
- CmdletBinding attribute and properties
- Returning Objects and pipeline
- Dynamic parameters

Classes

- What is a class
- Work with Methods and advanced object features

Agenda Day 2

Error Handling

- Introduction
- Streams and Write-Host
- Working with the ErrorRecord Object
- Terminating and Non-Terminating Errors
- Try-Catch

Git Introduction

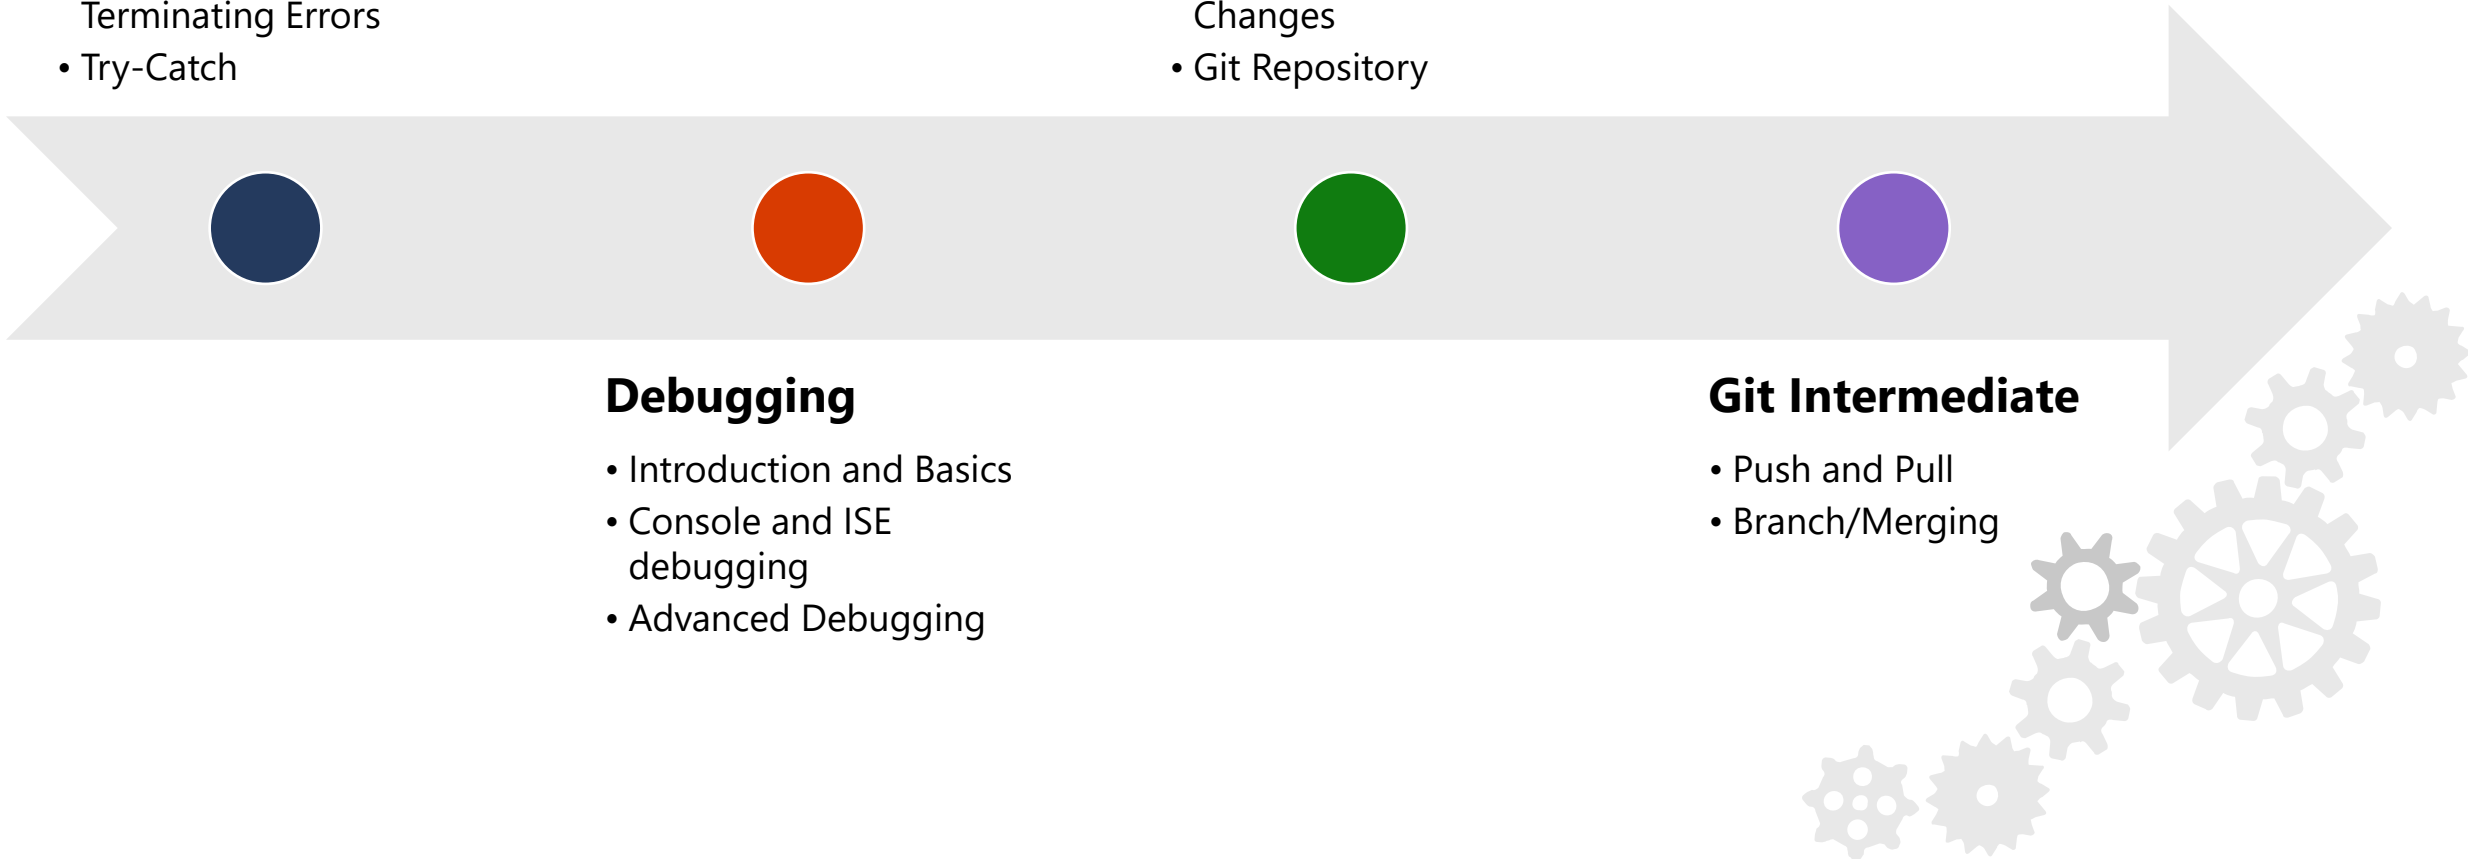

- DevOps and Git
- Source Control and Changes
- Git Repository

Debugging

- Introduction and Basics
- Console and ISE debugging
- Advanced Debugging

Git Intermediate

- Push and Pull
- Branch/Merging

Agenda Day 3

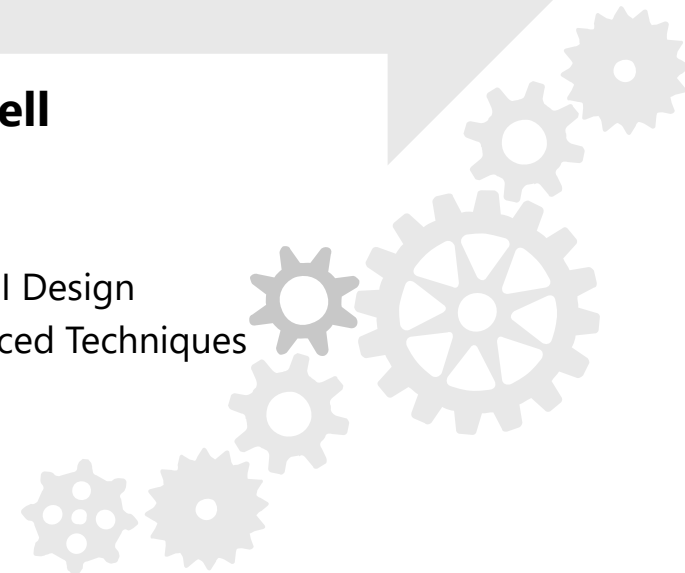

Runspaces

- Overview and Commands
- Classes and Methods
- Creation and Initialization
- Invoke and Remoting
- Debugging and Pools

Create a GUI in PowerShell

- The presentation Framework
- Visual Studio
- Graphical User Interface and GUI Design
- Code behind a Form and Advanced Techniques

...but stay **engaged**.

A close-up portrait of a young boy with dark skin and short black hair. He is wearing a white t-shirt and has his chin resting on his right hand, looking directly at the camera with a thoughtful expression. The background is dark and out of focus.

Virtual Training

Tour of your virtual classroom

Connect to Lab environment

Prerequisites and Overview

Using the desktop version of IE go to

- <https://aka.ms/premiereducation>

Sign in with your Microsoft account

- Live ID or Azure ID
- If you do not have one, then create it here:
- <http://live.com>

Training Key

- WorkshopPLUS -> My Training (Select at the top)
- Select Redeem Training Key
- Enter Training Key

Launch the Lab

In the Labs section, click Launch

Labs

→ 1

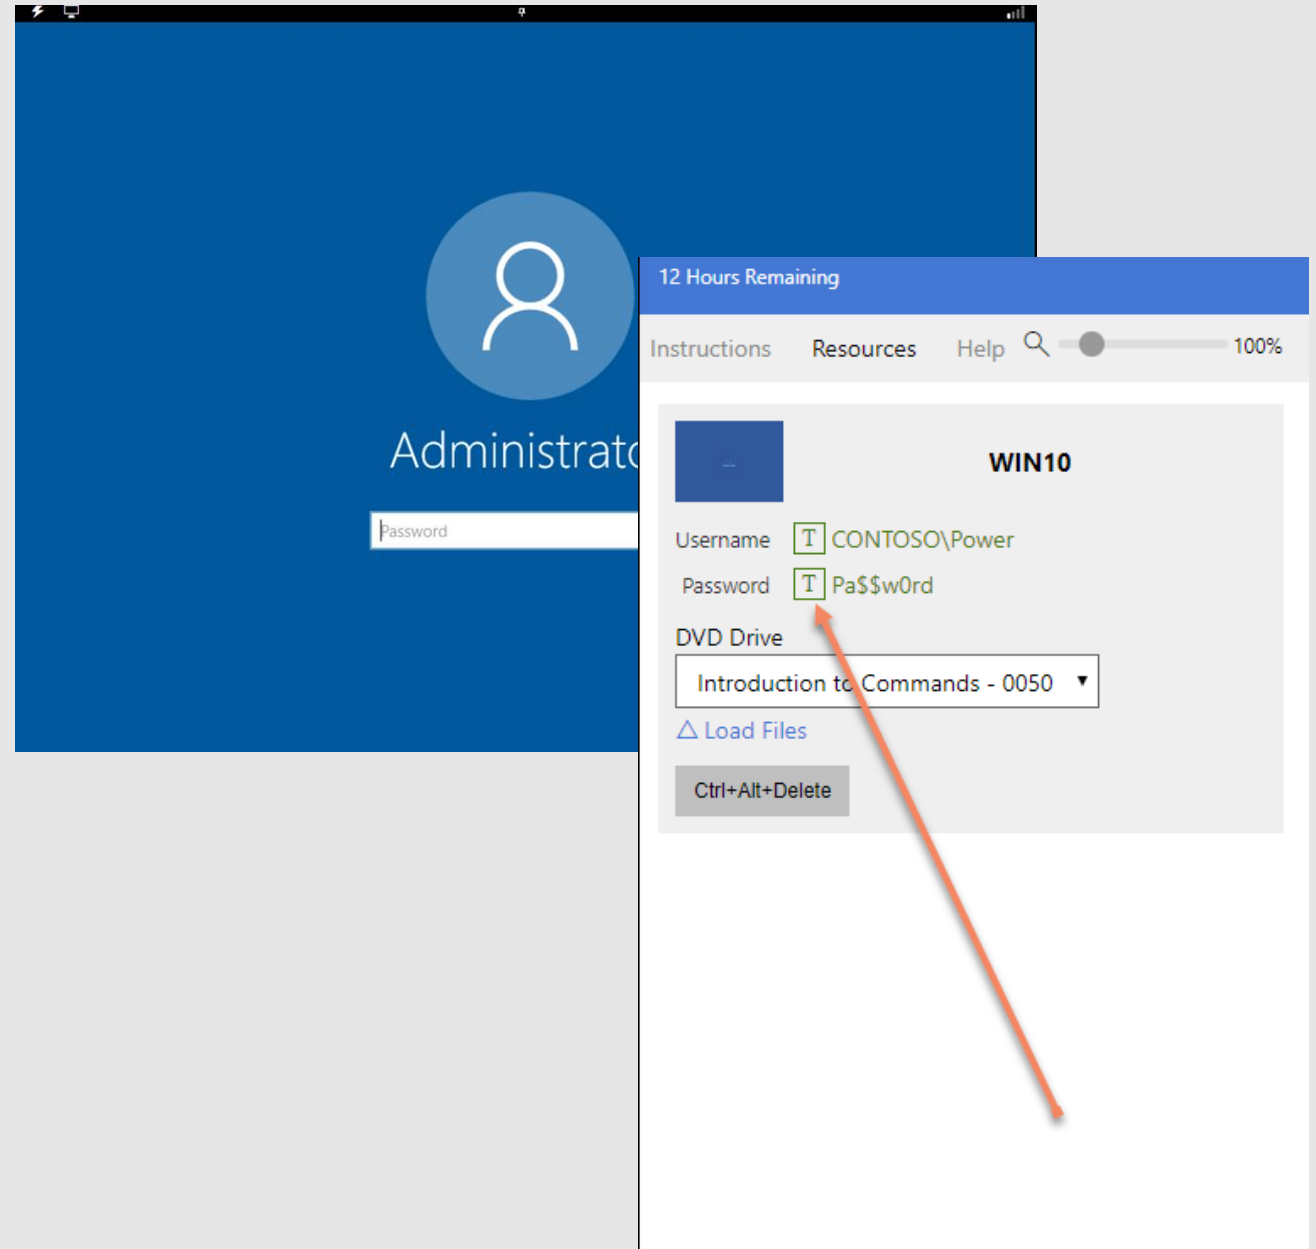

Required: Yes
Status: Cancelled
Started: Sunday, June 16, 2019
Ended: Wednesday, June 19, 2019

Launch

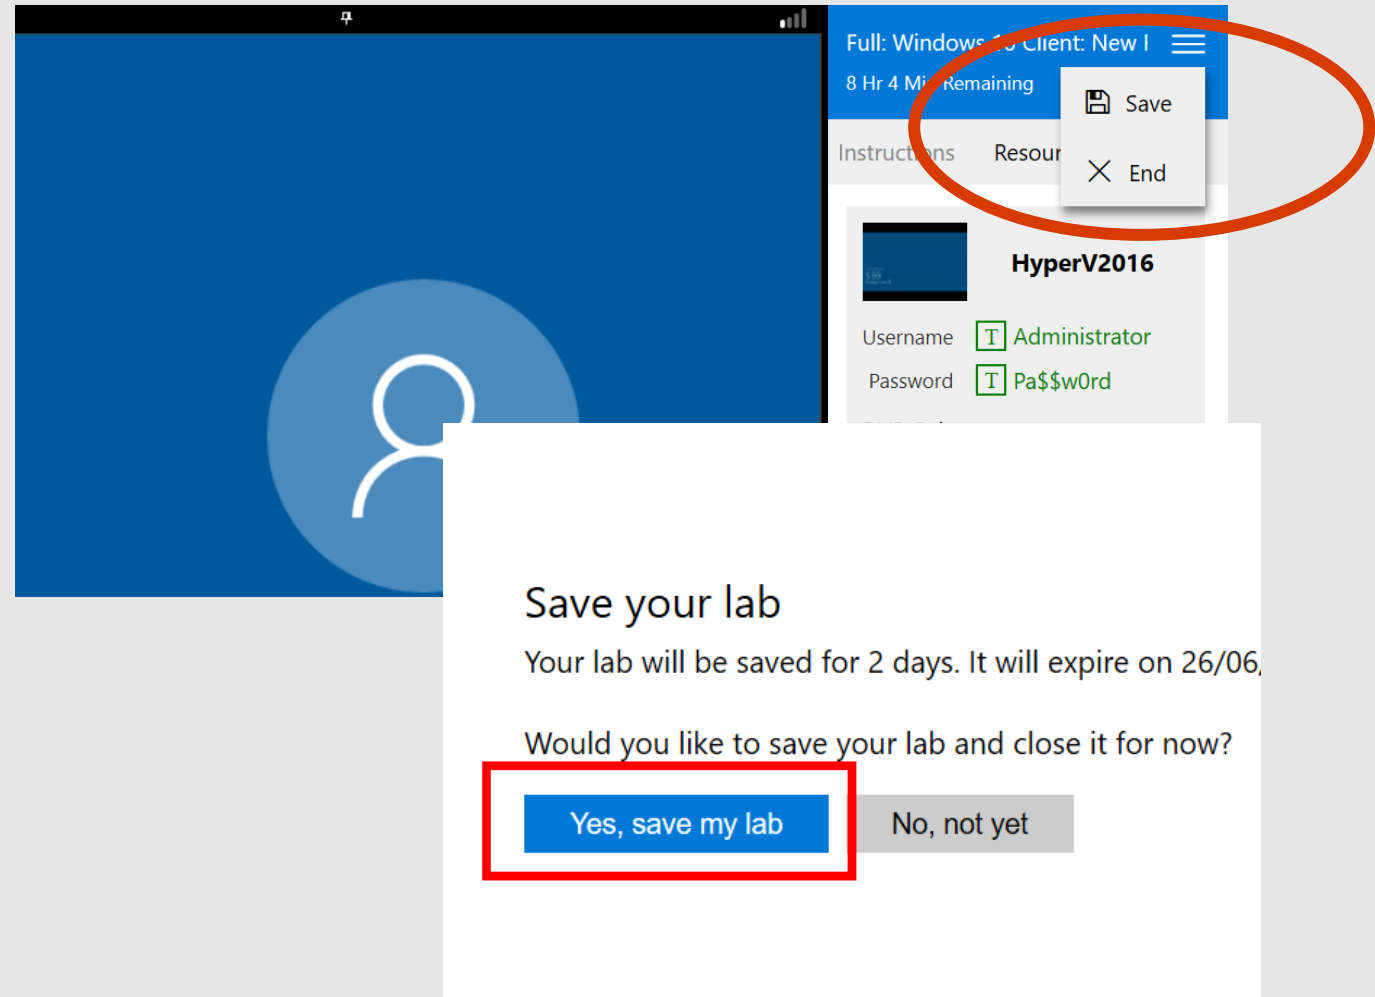

Lab environment LOD

Logon to the virtual machine using the provided password and username on the Resource tab.

LOD Lab Time Remaining

Ensure you select Save before leaving the LOD environment. This pauses the time remaining to complete the Labs.

Learning Preferences

Teaching Method	Knowledge Retention
See/Hear - Lecture	5%
Reading	10%
Audio Visual / Video	20%
Demonstration	30%
Discussion Group	50%
Practice by Doing	75%
Teaching Others	90%
Immediate application of learning in real life situation	90%

Help Us Get Better, Proactive Support Customers!

How?

Microsoft will send you a brief survey following your Proactive Support Delivery to gather your feedback. Please take a few minutes to complete it.

Why?

We strive to respond to your feedback and use it to improve our business and ultimately to improve your experience with us.

Thank you!

Look for this survey in your inbox:

It will come from Microsoft Surveys
<noreply.survey@email2.microsoft.com>
